

# VITA Ageless Medical and Laser Spa Fights the War on Aging

by Camille Morrison

Director of Business Development at VITA

The baby boomer population is growing at an enormous rate each year and more and more professionals are looking for cutting edge technologies to regain their youthful appearance without surgical recovery time. Medical spas have evolved over the last few years and have become more popular than ever. New and extremely effective non-invasive facial enhancements, along with home based skin care regimens, gently combat the effects on aging and sun-damaged skin both correcting and stimulating collagen production. Fine lines, wrinkles, brown spots and broken capillaries are dramatically reduced with IPL photo rejuvenation, Botox and Restylane. Mesotherapy, a non-surgical spot fat reduction therapy, has revolutionized the treatment of unwanted fat and cellulite targeting adipose fat cells and virtually melting the fat away from your chin, love handles, arms, abdomen, and thighs safely and effectively.

VITA a state of the art medical and laser Spa located in the heart of Roslyn, New York in the Harbour-view Shoppes, has taken the aging cell very seriously. Owner, and medical director, Dr. Karina Bibicheff is a Board Cert-

ified Physician who is passionate about aesthetic medicine. Dr. Bibicheff, along with a professional staff of medical aestheticians offer a full range of services that include Mesotherapy, Laser Hair Removal, Intense Pulsed Light Treatment, Signature Medical Facials, Peels, Microdermabrasion, massage and holistic therapies. Dr. Bibicheff and her staff have a personalized approach with each of their clients and each consultation is given special and individual attention

With all that has been written in the media about anti-aging it is important to know the facts vs. the myths on how to achieve younger and healthier looking skin in both men and women. Undoubtedly much of the appeal of this medical and laser spa is the medical expertise that you won't find in your usual salon/spa. Dr. Bibicheff enjoys providing the medical grade treatments that contribute to a person's overall wellness. Her goal is not to change the person you are but to make you look and feel

refreshed and relaxed. As more and more people seek wellness today and enjoy the benefits of a healthy, more youthful appearance there is no doubt that VITA is the place to come.
